## Alakona acquires faster paving machine

*Advertiser Staff and news services*

Honolulu-based Alakona Corp. said it will be able to resurface roads faster and more efficiently with a German-made paving machine just added to its fleet.

The \$350,000 state-of-the-art Vogele 5100-2 tracked paver can lay a swath of asphalt up to 15 feet wide, or the equivalent of an entire lane, the company said.

Alakona also is the first company in Hawai'i to offer Green Mix Hawaii , a surface made from 100 percent recycled material.
