School of Architecture, was awarded the 2009-2010 Eric N. Jacobsen Memorial Scholarship, a two-year \$10,000 scholarship donated by Bonded Materials Co. Grimm also accepted a paid internship with Bonded.

The scholarship was created in memory of Eric N. Jacobsen, a beloved and invaluable product manager for Bonded Materials Co., who died suddenly in 1996.

Recognizing Shae Grimm (middle) during the April 24 scholarship luncheon hosted by Bonded Materials Co. are Brian Deer, vice president of Bonded Materials Co., and Poli Jacobsen, Eric Jacobsen's wife.

## New Machine Recycles Asphalt

Alakona Asphalt Paving Specialists has started operation of a machine to make recycled foamed asphalt base, known as Green Mix Hawaii, at Kenai Industrial Park. The 40-foot machine is called the WIRTGEN KMA 200 and relies on a special, cold mix

process that uses less energy and emits virtually no particulate matter (pollutants) to turn recycled asphalt into paving material for new paving and pavement rehabilitation.

The new machine produces a foamed asphalt treated base, which can be made and then stored for up to 30 days. The portable machine can produce a 20-ton truckload of Green Mix Hawaii every six minutes.

Green Mix Hawaii can qualify for LEED materials and resources credits and LEED innovation and design credits.

## Kailua Village Rebranding

The Kailua Village Business Improvement District (KVBID) recently selected the international brand identity and environmental communications design firm of Selbert Perkins Design to help develop a branded environment for Kailua Village.

Selbert Perkins Design will develop brand strategies to effectively reposition the Kailua Village brand. The mission of the KVBID is to make Kailua Village a model sustainable

community that is a better place to invest, work, live and play.

## Old Republic to Pioneer Plaza

Old Republic Title & Escrow of Hawaii, Ltd. recently signed a lease for more than 13,000 square feet taking the entire 19th floor of the Pioneer Plaza.

Although the insurance company won't move into the new space until the build out is completed in September, Pioneer Plaza held the firm's "state of the state" annual meeting in the new space in February. 

# STOP Repairing the Repairs!

Many of our projects involve correcting ineffective or faulty repairs! Our Staff and crews have the technical skills and expertise to provide you with the proper and long-lasting repairs to your reinforced concrete building.

## Concrete Repairs to Buildings:

- Lanais
- Walkways
- Ext. Walls
- Parking Decks & Structures
- Concrete Columns

## Corrosion Control & Prevention

- Galvashield XP Anodes for Spalling Prevention -Typical Service Life 10-20 yrs.
- Waterproof Concrete w/ Neogard Coatings
- Post Tensioned Cable Repairs
- Building Surveys & Analysis
